Movie: "Over The Hedge" - Spring has arrived and a group of feisty forest creatures awaken from their winter hibernation to find that a tall hedge has cut their forest in half and their nut and berry trees are gone. Where are they going to get food for next winter? Then RJ, an opportunistic raccoon, explains to the group that there is a new world called suburbia on the other side of the hedge where humans throw out enough food in a day to feed a whole forest. RJ convinces them to go over the hedge to the strange new surroundings and explore the snack-filled suburbs. **This animated comedy-adventure** features the voices of Bruce Willis, Steve Carell, Garry Shandling, Wanda Sykes, and William Shatner.
